

DIGITIZED OPERATIONS for SUSTAINABLE PROCESS INDUSTRIES

Plant-wide monitoring and control of data-intensive processes

FUDIPO & COCOP final Workshop

The objective of the workshop is to present the EU perspective on digital operations in process industries and to focus on plant-wide monitoring & control of data-intensive processes, the scope of SPIRE-02-2016 projects. First, the vision on digitization in sustainable process industries for Horizon Europe will be presented by Angels Orduña (*A.SPIRE's Executive director*).

The four projects of the SPIRE-02-2016 call (COCOP, FUDIPO, COPRO and MONSOON) will introduce their vision, objectives and outcomes through technical presentations. Specific focus will be put on **COCOP** and **FUDIPO** that will present the solutions implemented for different process industry (Steel, Copper, Pulp & Paper, Oil Refining, Heat and Power plants and Waste-Water treatment), evaluating their impact on quality and resources/energy efficiency and analysing their transferability to other sectors. Goals and results of MORSE project (SPIRE-07-2017) will be also presented to foster synergies between SPIRE projects. The workshop will also include a **poster session**.

It will be a virtual workshop with remote connection. Attendance at the workshop is FREE, Please, register before 10th March at 12.00 following link:

<https://forms.gle/dmcXurjXj2v9Whw88>

Workshop Organization Committee:

Matti Vilkkko (Tampere University) - matti.vilkkko@tuni.fi
Erik Dahlquist (Mälardalen University) - erik.dahlquist@mdh.se

Supported by:

Antonius Schröder (sfs-TU Dortmund) – antonius.schroeder@tu-dortmund.de
Carlos Leyva (IDENER) - carlos.leyva@idener.es
Teresa Gutierrez (TECNALIA) – teresa.gutierrez@tecnalia.com

Virtual Workshop:

You will receive the link by e-mail

Date:

11th March 2020, 8:30 – 17:00

DIGITIZED OPERATIONS for SUSTAINABLE PROCESS INDUSTRIES

Plant-wide monitoring and control of
data-intensive processes

Date: 11th March 2020, 8:30 – 17:00

Programme of the Workshop

Time	Topic	Speaker
8:30	Registration	
8:45	Welcome and agenda review	
9:00	Scope of the SPIRE-02-2016 call	Matti Vilkko (Tampere University) Erik Dahlquist (Mälardalen University)
09:15	SPIRE – Digitalizing the process industry – Horizon Europe	Angels Orduña (A.SPIRE's Executive director)
09:45	COCOP – Coordinating Optimisation of Complex Processes	Matti Vilkko (Project Coordinator) (Tampere University)
10:15	COCOP – Presentation of use cases, impact evaluation and potential transferability	Antonius Schröder (TU Dortmund) Mikko Korpi (OUTOTEC) Félix Bayón (SIDENOR) Peter Craamer (MSI)
11:15	Coffee Break	
11:30	FUDIPO – FUTURE DIRECTIONS OF PRODUCTION PLANNING AND OPTIMIZED ENERGY- AND PROCESS INDUSTRIES	Erik Dahlquist (Project Coordinator) (Mälardalen University)
12:00	FUDIPO – Presentation of use cases, impact evaluation and potential transferability	Elena Tomas-Aparicio (Malarenergi) Christian Wallin (ABB) Pär Johnsson (Billerud-Korsnas) Elif Erdinc & Ocan Şahin (Tupras) Mark Oostveen (MTT)
13:00	Lunch Break	
13:50	CoPro – Coordinated Production for Better Resource Efficiency	Sebastian Engell (Project Coordinator) (TU Dortmund)
14:15	MONSOON – MODEL-BASED CONTROL FRAMEWORK FOR SITE-WIDE OPTIMIZATION OF DATA-INTENSIVE PROCESSES	Claudio Pastrone (Project Coordinator) (LINKS Foundation)
14:45	MORSE – Model-based optimisation for efficient use of resources and energy	Heli Helaakoski (Project Coordinator) (VTT)
15:15	Coffee break	
15:30	Poster Session	
16:15	Wrap up and closure	Matti Vilkko (Tampere University) Erik Dahlquist (Mälardalen University)
